WORK EXPERIENCE

 FRONTEND DEVELOPER
January 2023 - current
Swiss Re, Madrid (Spain)

Employed within the cybersecurity and Identity and Access Management (IAM) division of a multinational reinsurance company

Key Achievements:
• Developed, maintained, and refactored applications dedicated to managing diverse access types, position transfers, data reconciliation, rules, and roles, leveraging the ReactJS library and ViteJS framework.
• Established a design system, consolidating reusable components across all recertification applications.
• Created a monorepo architecture housing frontend applications tailored for managing various access scenarios.
• Utilized Agile methodology, actively contributing to and presenting in Kanban ceremonies.
• Managed vulnerabilities across more than 50 repositories, effectively resolving security and code quality scan findings from SonarQube, Nexus IQ, Aqua, and NetSparker.
• Integrated build, test, and security scan pipelines via Azure DevOps, along with Dockerfiles for containerization.
• Built npm packages serving for authentication, insights, and component libraries utilized across applications.
• Designed and implemented comprehensive testing strategies encompassing unit, integration, and end-to-end tests.

 FRONTEND DEVELOPER
June 2021 - January 2023
Atida, Madrid (Spain)

Employed at an international e-commerce specializing in online pharmacy and parapharmacy products.

Key Achievements:
• Developed the frontend part of atida.com application utilizing the ReactJS library and NextJS framework.
• Led the charge in developing and maintaining comprehensive tests including unit, integrated, end-to-end, and performance testing, ensuring product quality and reliability.
• Implemented Agile methodologies such as Kanban and Scrum, ensuring efficient collaboration.
• Took charge of release management, handling Gitlab integration, Kubernetes, Docker, and CI/CD.
• Successfully integrated various payment methods including Adyen, SIBS, Redsys Bizum, and Braintree.
• Facilitated seamless delivery operations by integrating Mondial Relay and DHL delivery methods.
• Ensured system health and performance through monitoring and alerting with New Relic
• Fulfilled out-of-hour duties to maintain operational integrity.
• Contributed to knowledge sharing and process improvement through documentation of features and processes.

WORDPRESS DEVELOPER
July 2015 - February 2021
Freelancer, Madrid (Spain)

Engaged in collaborative endeavors with nine small and medium-sized enterprises, predominantly within the dynamic realm of the tourism industry, alongside fellow professionals specializing in web development, marketing, and content creation.

Key Achievements:
• Developed eight vibrant, responsive websites utilizing WordPress, integrating e-commerce functionalities, and optimizing for search engine visibility.
• Ensured the continuous maintenance and enhancement of all developed websites, maintaining their relevance and performance.
• Demonstrated leadership skills by overseeing and guiding project teams in the successful development of three impactful websites, orchestrating collaboration and ensuring delivery on project objectives.

EDUCATION
